

teknion storage

teknion

The Teknion® storage program extends beyond conventional office storage, encompassing a series of versatile storage systems and standalone products that integrate with Teknion furniture across the office.

Ledger® is a comprehensive storage system comprised of modular elements that can be customized to adapt to any planning or personal need. Ledger Plus further expands the range of options with sleek, modern storage products that double as seating, define boundaries and create casual meeting areas.

Teknion District®, Interpret™ and upStage™ storage coordinates with the furniture of each respective product line, but also maintains an aesthetic tie with Ledger and Ledger Plus through design details and a unified finish program. Teknion storage and furniture products work together to address the diverse and dynamic nature of today’s office.

Ledger provides exceptional flexibility, featuring a 1.6-inch-high increment size to meet any specification. All Ledger products are available preconfigured or as custom build-ups, with interchangeable drawers that reconfigure easily to meet current

and future needs. Designed to provide complete modularity, Ledger maximizes storage options for the busy workstation, open collaborative areas and high-density archival banks.

As an alternative to lounge seating, Ledger Plus Lounge-Height Drawer Cabinets provide a unique way to create seating in shared work areas and in-between spaces. Ledger and Ledger Plus components also combine to offer a mix of display and secured storage for individual or group usage—and add utility by serving to establish the boundaries of open casual meeting spaces.

No longer confined to out-of-the-way spaces or the office perimeter, multi-purpose storage is migrating to the center of the office, configured to define space or create collaborative hubs. Ledger Plus Storage Lockers, layered with add-on units and a worksurface, establish a focal point in an open work area to host varied activity.

Mobile tools now free people to work outside the workstation, engaging in a variety of activities in common areas and in-between spaces. In response to a more dynamic office, Ledger Plus achieves multiple functions: storage cabinets double as seating,

while standing-height cabinets act as the base for a worksurface that extends to open leg supports. The design efficiently provides access to work materials, as well as a place where people gather or pursue individual tasks.

Ledger Plus products offer a modern, upscale look with overlay fronts and refined details that include sleek drawer pulls and feet designed to complement Teknion systems furniture. Personal Lockers can be grouped

to create an accessible storage island that acts as a focal point for the space and doubles as a casual meeting area. If desired, storage can be customized with keyless locks.

A lighter scale, together with a mix of materials and finishes, creates a fresh contemporary look and feel. Ledger Plus offers a choice of seated-, counter- and bar-height storage-to-worksurface options to form space-efficient meeting areas. One-high cabinets double as a seating bench, as well as a base for stacking wood Add-On Cabinets to create dual-sided applications.

A wide range of wood, paint and laminate finish options makes it possible to fulfill any design concept. Drawer pulls and other details are designed to coordinate with furniture products across the Teknion portfolio, allowing one to create a distinctive aesthetic vision.

complementary storage

District, Interpret and upStage offer versatile storage pieces that can be combined and configured to build workstations tailored to individual needs. Coordinating finishes and complementary design details make it possible to pair storage components with furniture products from different lines.

01 district storage

District offers a selection of elegant storage components, including open and closed cabinets, credenzas and towers suited for both secured and display storage formats.

02 interpret lateral mounted storage - wood

Interpret Lateral Mounted Storage runs parallel to the worksurface to delineate the boundary of the workstation, while providing storage, privacy and a standing-height meeting surface. It is available in wood or metal.

03 interpret lateral mounted storage - metal

Interpret Lateral Mounted Storage in metal presents an opportunity to use color in a distinctive way that accents the unique formats of Interpret storage and accessories.

04 upstage mobile credenza

upStage Mobile Credenzas serve to divide space and, when cushions are applied, also provide casual seating.

organizational tools

The Interpret Accessory Dock is a multi-functional storage nest designed to minimize desktop clutter and provide access to electrical power. This clever tool offers a utility that extends beyond traditional desktop organizers.

01

02

03

04

01 interpret accessory dock

The Interpret Accessory Dock includes dividers for workflow management and compartments for personal items and mobile devices. It can be placed at any point along the worksurface edge.

02 integrated organizer tray

An interior Organizer Tray reverses to create a uniform storage surface that also functions as a tablet stand.

03 standalone organizer tray

The Organizer Tray can be detached to act as a standalone product or integrated with the Accessory Dock when access to power is required.

04 mobile devices

The Accessory Dock stores and powers mobile devices.

organizational tools

Additional Organizational Tools include the Interpret Laptop Locker, upStage Mobile Cubby Tray and Hutch Accessory. Together, these unique accessories contribute to the utility of the individual workspace, minimizing clutter and enhancing efficiency.

05 upstage hutch accessory

The upStage Hutch Accessory can be placed inside a storage hutch or stacker, or positioned against a panel or screen to provide convenient access to documents.

06 upstage hutch accessory

The upStage Hutch Accessory features a Seamless case interior in neutral tones, while the exterior can be painted to accent the workspace with vibrant color.

07 upstage mobile cubby tray

Designed to store miscellaneous items throughout the office, upStage Mobile Cubby Trays can also create a punch of color where desired. Integrated Mini Tray Organizers serve as pencil trays and double as handles.

08 interpret laptop locker

The Interpret Laptop Locker enhances the utility of credenzas, providing a low profile case with a lockable closure. It slides to secure the laptop on one side, leaving the other side available for workflow organization.
