Teknion

Teknion

Teknion embraces change and its innate possibilities. Our culture is one of innovation. In that spirit, we have stepped forward to integrate sustainable principles and practices into the design, manufacturing and marketing of our products.

Teknion products perform independently and in concert, combining in virtually unlimited configurations. Our philosophy embraces design as one of the best tools we have for realizing the benefits of business, while also striving to reach sustainable goals.

We have learned from design that changing a single detail alters the whole. Every inch makes a difference. Every leap is the sum of many small steps.

Teknion creates furniture that connects people, technology and spaces; integrated design with new possibilities for a healthy, productive world tomorrow and the day after.

# Savera overview

## ONE DESIGN, MANY FORMS

Savera® demonstrates that a classic silhouette can co-exist with comfort and performance, at an exceptionally affordable price.

Savera is a full line of ergonomically sophisticated seating – one design that takes many elegant forms. Model variations include: mid-back or high-back chair, oversized version with a wider scale, stool model and a visually complementary guest chair. A dual upholstery option allows the look of the chair to be tailored to its setting.

#### SHAPED FOR COMFORT

- Curved back provides a body-contour fit for superior support and comfort
- Back height enhances support of the upper body to alleviate shoulder and neck stress
- Molded foam seat helps distribute weight evenly, to ease body pressure while seated

- Combination of adjustments with a wide range of adjustability accommodates the body shapes and sizes of a broad population and allow for personal preference

#### DESIGNED FOR THE ENVIRONMENT

- Greenguard® Certified for Indoor Air Quality
- 92.4 percent recyclable

# Savera adjustments

## 1.

### LUMBAR HEIGHT

Adjusts up and down 2.75 inches as the integrated lumbar support mechanism flexes in and out, continuously conforming to the shape of the back.

## 2.

### ARM HEIGHT

Soft, urethane armrests easily adjust over a range of 4 inches, allowing users to find a natural position and reduce discomfort in the arms, shoulders and neck.

## 3.

### ARM WIDTH

Total adjustment of 3 inches permits users to customize arm width to suit individual body type and preference.

## 4.

### SEAT HEIGHT

Three cylinder styles offer adjustment ranges of 3, 4 and 5 inches, allowing users to position seat height to suit personal size and preferences.

5.  
**TILT TENSION**  
Easy-to-adjust side tension adjustment tailors the chair's tilt resistance to personal size, weight and preference.

6.  
**SEAT DEPTH**  
A 2-inch depth range promotes proper contact with the chair back, reducing pressure behind the knees and improving circulation and comfort.

7.  
**TILT CONTROL**  
The back tilt can be set in upright, free-flow movement or a four-position tilt lock to provide appropriate support in multi-task situations.

8.  
**MECHANISM**  
Swivel-tilt and synchro-tilt mechanisms allow the user to glide from a reclining position to a forward tilt. Synchro-tilt models feature a 3:1 ratio – for every three degrees of back tilt, the seat tilts one degree for a total back tilt of 24 degrees.

# Savera guest chair

A natural complement to the task chair, the Savera guest chair offers comfort, support and easy mobility whether at the conference table or next to a desk in the private office.

- Sculpted back provides seated comfort
- Integrated arms with soft urethane armrests offer support and ease strain
- Available with an upholstered seat pad option, ideal for extended sitting or to vary aesthetics
